

Banding & Banding Tool

This banding tool is used to fix stainless steel banding and strapping. Banding tools help apply tension to the banding, create a seal or connection, and trim excess strapping.

BANDING TOOL SPECIFICATIONS

- Used to apply Stainless Steel Band, can also be used for Galvanized or Carbon Steel Band and general steel strapping
- Drop forged tool and heat treated with built in cutter
- Spring loaded grip lever improves ease of use
- Weight 2kgs approx. (4.3lb)
- Spinning Handle for ease of tightening

STOCK CODE: 19mm Banding: SFB19
